

Eating on board the Eendracht

To serve or be served

The renting price of the Eendracht is a so called 'bare rental price'. It means that you rent the ship and her facilities, but you take care of your own foods and drinks. Which, at the same time, is part of the adventure. But it might be easier and more practical to let it all go and let our cook take care of you and your guests.

We offer two different catering concepts on board the Eendracht.

‘Cooking with the chef’

As it is not self-evident for everyone to cook for bigger groups, it might be nice to have someone by your side who does have the needed experience. Someone who knows how much ingredients to buy, that organizes everything, has knowledge of herbs and tastes and can serve a neat and delicious meal. For a reasonable price, you can hire our cook, who will be staying on board as well. He or she will devise a menu, do the first groceries and together you will provide for your own meals. If there’s any shopping to be done in between, we’ll do it together. Included in the concept are:
breakfast, lunch, dinner, coffee/thee and all snacks.

Service costs half pension	€165,- per day
Price per person*	€32,- per day
Service costs full pension	€195,- per day
Price per person*	€47,- per day

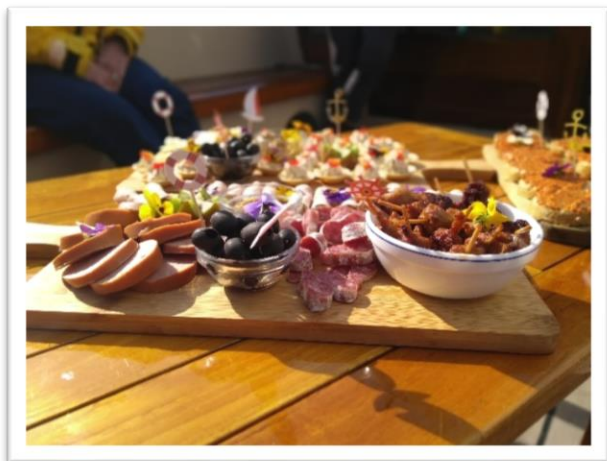

* Prices mentioned are without soft- and alcoholic drinks. See ‘Drinks on board’.

‘Standard catering’

You don't want to be concerned at all about the cooking? Then you can choose for our standard catering concept. You pay a fair daily rate for our cook, who also sleeps on board and provides you tasty delicacies from early morning to late evening. A varied breakfast with fresh bread or bread rolls out of the oven, several sorts of spreads, yoghurt with fruit and orange juice or a deliciously fried egg with bacon. In the afternoon, the lunch is always served with an excellent season soup and for dinner a three-course menu. Meats, fish, pastas, curries... You name it. A varying menu, created by our cook. Are there any wishes or is anyone vegetarian or allergic? No problem; we'll discuss everything and if it's necessary, we can arrange a phone call or meeting with our cook to arrange your desires. Coffee/tea and all snacks are included.

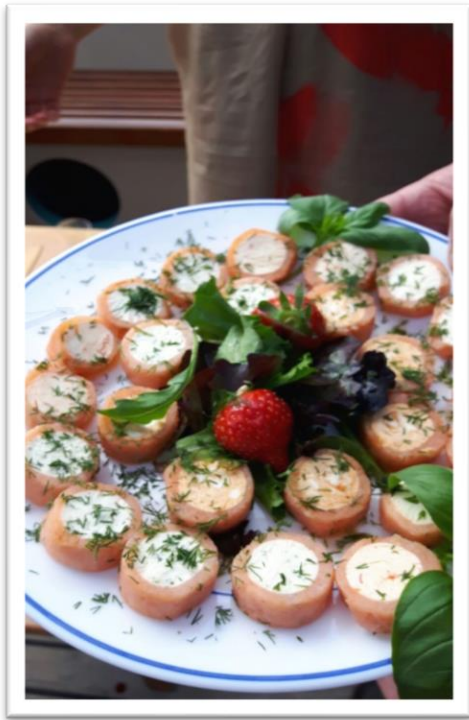

Service costs half pension	€195,- per day
Price per person*	€42,- per day
Service costs full pension	€220,- per day
Price per person*	€57,- per day

* Prices mentioned are without soft- and alcoholic drinks. See ‘Drinks on board’.

Of course, there is always a possibility to have a personal consultation with the cook. Together you can set up a catering menu, that is adjusted to what you desire. This special catering concept is mostly used on special occasions such as weddings, birthdays and special company outings. Decoration and serving snacks and drinks at this concept, of course, belongs to the possibilities.

Concerning drinks on board, there are three different options to choose from.

1. You buy your own drinks and bring them along.
